## ABOUT THE GUIDEBOOK

Knowledge is of two kinds.  
We know a subject ourselves, or  
we know where we can find information.

Samuel Johnson  
April 18, 1775

Many self-advocates have approached me over the past few years about where to get some good, practical information and materials about self-advocacy. You also told me that you wanted materials that were written by self-advocates. In response to your comments, this guidebook was developed. The guidebook is about finding out who has what you need and where to go to get it.

I included materials that were written by and for self-advocates. Sometimes self-advocates sent me materials that they said helped them. However, the materials were written by professionals. I included these materials. Some of the materials are free and some will cost you money. You will have to ask the people listed in the guidebook the cost of the materials.

The guidebook is divided into the following 19 sections:

- |                                     |                                                |
|-------------------------------------|------------------------------------------------|
| (1) advisor training                | (11) leadership skills                         |
| (2) Americans with Disabilities Act | (12) legal rights                              |
| (3) board training                  | (13) Personal Futures Planning                 |
| (4) building self-advocacy groups   | (14) public awareness and education            |
| (5) choice making                   | (15) relationships, sexuality, and social life |
| (6) employment                      | (16) safety                                    |
| (7) evaluation of services          | (17) self-advocacy movement                    |
| (8) financial issues                | (18) self-advocacy skills                      |
| (9) health and medical concerns     | (19) services and supports                     |
| (10) housing                        |                                                |

In each section, each resource listing includes title, author, year of publication, a description of the publication or video, and where to write or call to get the materials. **The Research and Training Center and their staff cannot mail you any of the materials listed in this guidebook.**

I hope the guidebook will help self-advocates to continue to build and strengthen their grassroots movement. As Francis Bacon said in 1597, "Knowledge is power."

**Author/Year:** California's Department of Developmental Services (1990)

**Description:** This video begins by showing three self-advocates who are going on a picnic. They meet a stranger who does not talk. They explain to their new friend that a person has rights, including the right not to talk. They invite their new friend to come to a People First meeting to learn about all of the rights that he has. They then take the stranger to their residential home to meet their other friends. The worker from the residential home, the People First representative, and other self-advocates talk about their rights, responsibilities, and jobs. The four friends then go out shopping and to dinner before they go to their People First Meeting. The video then shows the proceedings of a People First meeting which focuses on making choices and rights. At the end of the meeting the stranger stands up and introduces himself as David and that he "is a person and has rights." This video is about 26 minutes long.
